Security and Peace of Mind – Sliding Safe-S-Capes

Crimsafe's unique Safe-S-Cape® is a keyless exit system. It lets you quickly exit in a fire or other emergency, but is just as hard to penetrate as all our other products because it features Crimsafe's screw-clamped mesh as well as a triple "anti-jemmy" design that protects the lock.

A Double- or Triple-Sliding Safe-S-Cape is a system of 2 or 3 sliding panels of Crimsafe that slide within two tracks. Along one edge of each panel is a full length locking stile that, when lightly pressed, releases along its entire length. With its one-touch and slide release, even a small child can operate a Sliding Safe-S-Cape.

When closed, the overlapping Crimsafe panels reinforce each other via an interlock, forming a strong and secure barrier

Applications –

- Double or Multi-Casement Windows
- Double or Multi-Sliding Windows

More about Double and Triple-Sliding Safe-S-Capes overleaf...

Features & Benefits of Double & Triple-Sliding Safe-S-Capes® -

Only Crimsafe drives a screw right through mesh and frame – for unbeatable strength

Keyless Exit and One-Touch Release

Peace of mind, knowing that in an emergency you can get out of the house fast thanks to the one-touch and slide release

Full Length Locking Stile

Increased strength due to continuous contact with the frame

Three-tier Anti Jemmy System

A burglar must get through 3 physical barriers to get at the Safe-S-Cape's lock

Integrated Interlocking Panels

Panels lock in to each other in the closed position, enhancing the strength of the system

Slimline Design

Heavy duty protection without heavy duty looks

Heavy Duty Rollers

We use high quality rollers designed for glass windows, so they will last even longer with relatively light Crimsafe panels

Easy Access to Window Surface

Crimsafe panel slides away from the window surface, enabling easy cleaning

Smaller Frame Sections

Boasting the strength of door frames, but with a smaller frame width

Screw-Clamped Security

Only Crimsafe clamps 304 Tensile Tuff® Security Mesh between 2 serrated pieces of metal, then drives a screw right through both mesh and frame to ensure a vice-like grip...and beat burglars

Tamper-Resistant screws

Exclusive to Crimsafe. Screws can only be applied or removed by a tool registered with Crimsafe. This ensures the integrity of your security system

Custom Built

Means a perfectly fitted job. Product can be made to fit the design and format of your windows

Enhanced Lifestyle

Crimsafe provides unhindered views, keeps out mosquitoes, and lets you keep a cool, safe house in Summer

Blocks Out at least 30% of UV Rays

Means a longer life for interior furnishings

Blocks Heat Transfer

Improves the energy rating of glass windows and keeps home cooler in Summer and warmer in Winter

Passes Australian Standards

Crimsafe always exceeds the relevant Australian and Industry Standards for security

Full Range of Colours

Crimsafe stocks a full range of standard colours so that the system you buy complements your home. Other colours are available on request

Guaranteed for 10 years

Crimsafe warrants the product from defects in materials under the conditions of normal use for up to 10 years from the date of purchase. Please refer to our Care Guide for more information
