- Single Sliding

Commercial Systems

Balustrade & Pool Fencing

Fire Attenuation

Security with Peace of Mind -

Crimsafe's unique Safe-S-Cape® is a keyless exit system. It lets you quickly exit in a fire or other emergency, but is just as hard to penetrate as all our other products because it features Crimsafe's screw-clamped mesh as well as a triple "anti-jemmy" design that protects the lock.

Inswinging Safe-S-Capes are hinged along their sides or top, to swing inwards. They are always installed on the inside of buildings, usually in a reveal fix. They have a full length hinge and full length locking stile that, when lightly pressed, releases along its entire length. With its one-touch and pull release, even a small child can operate an Inswinging Safe-S-Cape.

Applications -

- Single and Multi-Panel Sliding Windows
- Double Hung Windows
- Single and Multiple Hoppers
- Casement and Multi-Casement Windows
- Lap Louvre
- Normal Louvre
- Fixed and Sliding Combinations

Features & Benefits of Inswinging Safe-S-Capes® -

Only Crimsafe drives a screw right through mesh and frame – for unbeatable strength

Keyless Exit and Quick Release

Peace of mind, knowing that in an emergency you can get out of the house fast thanks to the one-touch and pull release

Full Length Locking Stile

Increased strength due to continuous contact with the frame

Full Length Integrated Hinge

Means no sagging and increased resistance under attack

Three-tier Anti-Jemmy System

A burglar must get through 3 physical barriers to get at the Safe-S-Cape's lock

Easy Access to Window Surface

Crimsafe panel swings away from the interior window surface, enabling easy cleaning

Easy Installation

An Inswinging Safe-S-Cape can easily be internally reveal-fitted to many windows, acting independently of the window

Smaller Frame Sections

Boasting the strength of door frames, but with a smaller frame width

Screw-Clamped Security

Only Crimsafe clamps 304 Tensile Tuff® Security Mesh between 2 serrated pieces of metal, then drives a screw right through both mesh and frame to ensure a vice-like grip...and beat burglars

Tamper-Resistant screws

Exclusive to Crimsafe. Screws can only be applied or removed by a tool registered with Crimsafe. This ensures the integrity of your security system

Custom Built

Means a perfectly fitted job. Product can be made to fit the design and format of your window

Enhanced Lifestyle

Crimsafe provides unhindered views, keeps out mosquitoes, and lets you keep a cool, safe house in Summer

Blocks Out at least 30% of UV Rays

Means a longer life for interior furnishings

Blocks Heat Transfer

Improves the energy rating of glass windows and keeps home cooler in Summer and warmer in Winter

Passes Australian Standards

Crimsafe always exceeds the relevant Australian and Industry Standards for security

Full Range of Colours

Crimsafe stocks a full range of standard colours so that the system you buy complements your home. Other colours are available on request

Guaranteed for 10 years

Crimsafe warrants the product from defects in materials under the conditions of normal use for up to 10 years from the date of purchase. Please refer to our Care Guide for more information
