Types of mesh

Decorative Doors come standard with fibreglass insect mesh.

Or choose from the following optional mesh:

- **Clawproof mesh** – made from heavy-duty PVC coated polyester and is resistant to tears and damage from household pets and children.
- **One-way mesh** – constructed of aluminium, one-way mesh allows the person inside the house to see out and not be seen by anyone at the door.
- **Crimsafe® mesh** – combine with Crimsafe – the superior stainless steel security mesh on the market.

Sliding Doors

Standard colours: Black, Brown, Deep Ocean, Paperbark, Primrose, Stone Beige, White, White Birch & Woodland Grey. Special powdercoat colours also available as an optional extra.

Sliding Door: width sizes range from 850–1220mm

Large range of colours

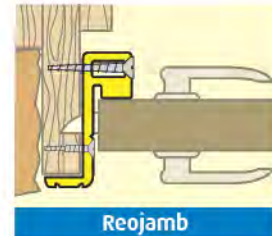

Our Decorative Doors are available in a large range of standard colours, however, special powdercoated colours are available on request as an optional extra.

To help you find the right colours for your Decorative Doors, ask the Franklyn Sales Consultant to show you the Dulux and Interpon colour charts to select from.

Optional extras

Decorative Doors are available with the following options:

- **Reojamb (anti-jemmy device)** – If a hinged security door is forced or jemmied, the timber door jamb is likely to split – compromising your security. To solve this problem we created Reojamb – an anti-jemmy device structured to improve the strength and security of your existing door jamb. Reojamb is installed from top-to-bottom of the entire door height on your door jamb which helps to distribute any impacts, reinforcing the whole door. Made from heavy gauge aluminium, Reojamb will blend unobtrusively with your security door.
- **3-Point Security Locks** – Franklyn hinged and sliding doors can be installed with the 3-point locks as an optional extra to deter even the most persistent intruder.
- **Prowler Guard** – Prowler Guard prevents intruders sticking their fingers through some types of mesh and accessing the lock on the inside. Made from clear polycarbonate, Prowler Guard is fitted around the handle of your door lock.

Ask the Franklyn Sales Consultant to show you samples of our optional extras.
